

Invitation to Peel Group Liverpool Waters Showcase Event

The Development Director, Lindsey Ashworth of the Peel Group, one of the largest privately-owned UK companies in the northwest of the UK has recently written to many mayors from around the world. Peel have extensive interests in real estate, ports, airports, media and renewable energy located across the UK and overseas. Indeed locally, they are the owners of Liverpool John Lennon Airport and the Port of Liverpool.

They would be delighted to be given the opportunity to welcome Mayor's invited to the IFB and their delegations to their Liverpool office and in particular to personally introduce them to the largest and most exciting property development in the UK on vacant land in their ownership that they have named "Liverpool Waters".

Liverpool Waters is a proposed £5 billion property investment comprising a mixture of uses with planning permission stretching over one mile of the city's waterfront covering 55 hectares extending the City centre with over 1,700,000 square metres of proposed new floor space.

Peel are entering the delivery phase of Liverpool Waters and are seeking investors, occupiers and partners from around the world to deliver this incredible development. It seems appropriate to the Peel Group that as the leaders of your world class cities, you would want to be fully informed of their plans and to discuss the opportunities that they believe exist for you and your organisations within your city and country.

Please let us know if this is of interest and if so please contact Lindsey direct via email:
